

Highland Archive Service Vision and Mission Statement

Highland Archive Service collects, conserves and makes accessible records which reflect the history and diversity of the Scottish Highlands and its inhabitants for the benefit of present and future generations. We promote the use of these records to inform local decision-making, strengthen community and cultural identity and promote wellbeing through the study and enjoyment of history. We aim to make the collections in our care as widely accessible as possible, in the welcoming and inclusive searchrooms at our Archive Centres, through modern digital channels and through an active community engagement programme, enhancing opportunities in culture, learning, leisure, health and wellbeing.
