

The best way to start a family tree is with yourself!  
Put your name in the middle & fill the other boxes with  
fun facts about you! Then why not fill out another for  
each person in your family?

A circular family tree diagram. In the center is a large white circle with a black outline. Surrounding this central circle is a ring of green leaves and brown branches. Outside this ring are twelve empty rectangular boxes with black outlines, arranged in a circle. The boxes are intended for names and fun facts about family members.
