RECORDS' CONTEXT

Name of creators: Offshore Wind Power Limited (OWPL)

Administrative history: Offshore Wind Power Limited (OWPL) proposed the development of the West of Orkney Windfarm, an offshore windfarm, located 23km from the north coast of Scotland and 28km from the west coast of Hoy, Orkney. The project would consist of both onshore and offshore components to generate and export the power from the offshore windfarm to a new onshore substation at Spittal, Caithness.

The onshore part of the project was granted planning consent by Highland Council in June 2024.

At the time of writing (Aug 2024) the final decision on the offshore part of the project was still to be made by Scottish Ministers.

Custodial history: Deposited by Thurso Library following the end of the public consultation period.
