

Create your own Motorcycling First Aider

Colour-in and cut-out your
motorcycle and
rider model.

I am Mairi Chisholm and I am
18 years old. In August 1914,
I travelled with my friend Elsie
to Belgium. We are serving
with the Flying Ambulance
Corps, helping wounded
soldiers at the Front Line.

Glue together just
the head and back
of the rider and sit
Mairi astride
her motorcycle!

Fold along the dotted lines.

Glue together
the top edges
of the motorcycle.
